

DIESEL INJECTOR PULLER;
FORD TRANSIT & CUSTOM

Information

Engine Codes Include:

Transit 2014 onwards & transit custom 2012 onwards.

Designed for two piece injector Removal:

Without taking apart the cylinder head.

Set Includes:

Support Sleeve, shoulder nut, injector removal socket and pull spindle.

Precautions

- Always wear safety gear.
- Working in a clean and safe environment.
- This task should be carried out by trained personnel.
- Make sure to consult manufacturers manual.
- Do NOT use with air tools.

Instructions

This set allows for the removal of a jammed two piece injector, which can be carried out without having to un-install the cylinder head.

Un-install the injector top part with the injector removal socket. [remove the electrical connection beforehand].

Screw the pull spindle into the injector bottom part.

Then Slide the support sleeve over the pull spindle and screw on the shoulder nut.

Finally remove the injector by turning the shoulder nut.

Warranty

If you are unsure on how to use the item please contact us. If it were to fail due to a manufacturing fault or poor workmanship we will repair or replace it. Please contact your local dealer in the event you need to send the item back. You can also make a repair/replacement request on our website and download & complete the form online. Normal wear and tear along with misuse will void any warranty. Consumables are not covered under warranty.
